

# **Do Not Shop in** **Cut Bank!!!**

Blackfeet People, we need to take a stand together as a Nation against people who have taken advantage of our people for hundreds of years.

The City of Cut Bank is trying to threaten the Blackfeet Nation with lawsuits over our water.

This water does not belong to them. They have freely used it for many years. So they think that they have a right to tell us what to do with our own water.

This water comes from our Blackfeet land and mountain range.  
Is it Blackfeet water or is it the City of Cut Banks water?  
Who has the say over this water? ~~This is Blackfeet Water!!!~~

They can't threaten us with a lawsuit, because the water belongs to us and they know it! They are trying to scare our Indian nation into giving our water over to them for FREE!

**Our people need to Boycott Cut Bank by not shopping, banking, gassing up, or eating there and basically not doing any sort of business in Cut Bank.**  
**We do not need them to survive !!!!**
